

**Multiple  
Applications**

**Water Management Solutions, Inc.**  
**Going the extra mile starts here!™**

**AP AmeriPumps WP 150/200**  
**Automatic Priming Centrifugal Pump**

WMS is proud to offer the AmeriPumps WP 150/200 Automatic Priming Centrifugal Pump. It excels in well-point dewatering, straight dewatering, and sewer bypass, making it one of the most versatile pumps available. It also has the Sykes Univac vacuum system that allows the pump to prime and re-prime automatically, operate with the suction intake intermittently exposed to atmosphere, and to run dry for indefinite periods of time without harming

the pump. If you are looking for versatility and exceptional power, the WP 150/200 is for you.

**Construction  
Dewatering**

**Well-Point  
Dewatering**

**Sewage Bypass**

**Flood Drainage**

**Mining/Quarries**

**Municipal**

**General Industrial**

## Features

- Self-contained fuel tank - allows over 28 hours of runtime
- Close coupled centrifugal pump with vacuum priming system mounted to a diesel engine
- Flexible - handles raw sewage, slurries, well-point dewatering, and liquids with solids up to 3" diameter
- Sykes Univac patented vacuum priming system
- Back flush system - clear suction pipe with push of a lever
- Patented, dry running vacuum pressure seal - continuous dry running periods and inexpensive field replacement
- Caterpillar 3024C engine
- Max flow 1700 GPM (gallons per minute)
- Max discharge head - 170 ft
- Max particle size - 3 inches
- Weight - 3000 lbs (full of fuel)
- 66 Gal capacity - 28+ hours runtime
- Sykes patented vacuum/pressure seal
